

A long-respected course, where old English traditional design, spacious fairways, and awesome par 5's make for a golfing experience as good as it gets. Possum Trot was built to give the average gentleman or lady golfer a pleasantly-challenging day on well-kept fairways and manicured

greens. We have been consistently rated as the "Friendliest Course on the Beach." Commitment to excellence is our goal, while always offering competitive rates.

The Glens Golf Academy at Possum Trot is a complete training center, with group or individual lessons from LPGA and PGA-certified instructors. Our facilities include a full-length driving range, a separate short-game range, an indoor range, and a huge 12,000-square-foot putting green.

The first plays downhill and the invitation to "Let Er Fly" is apt. Use judgement in placing the second shot because out-of-bounds left and a bunker right can wreak havoc with your score. A pond guards the right side of the large, rolling green.

Red Handicap 2

A short par 4, but "Heartbreak Ridge" lurks in the woods to the right. Be aggressive with your approach because of the gathering bunker to the front right of the green.

This long, dogleg left invites you to hit a big drive by its open appearance, but trees and mounds to the left warn against a big hook. The large green is well-bunkered.

Strategy is the key to this par 5. You can play it a dozen different ways and that elusive birdie will remain locked away.

Play from an elevated tee over rolling mounds or take the shortcut over the tall pines that stand directly between you and the flag. Avoid the deep bunker in front of the green.

There is nothing nice about this “spice.” Usually a long iron into the prevailing wind to a subtly undulating green tightly guarded by devilish bunkers.

The bite in this dogleg left is in the sloping green. Your approach must find the right area or three putts will result.

It's surprising how many golfers hit it into the water off the tee. But don't let that worry you, just tee up another new ball, lying three.

Red Handicap 6

Actually it's easier to hit this par 5 in two than to hit #11 in regulation. That is, if you can avoid the fairway bunkers, the unique grass bunker lurking around the corner, the pond short of the green and the four bunkers that surround the putting surface.

As you stand on the tee and take in the lake, the gaping bunkers, the scenic beauty, the wind velocity and direction, and the bulkheads that stop a skipped shot, remember that “analysis is paralysis!”
